2

Sign Up

Formatted: Right: 0.57"

appear. Click on “Sign up now!”

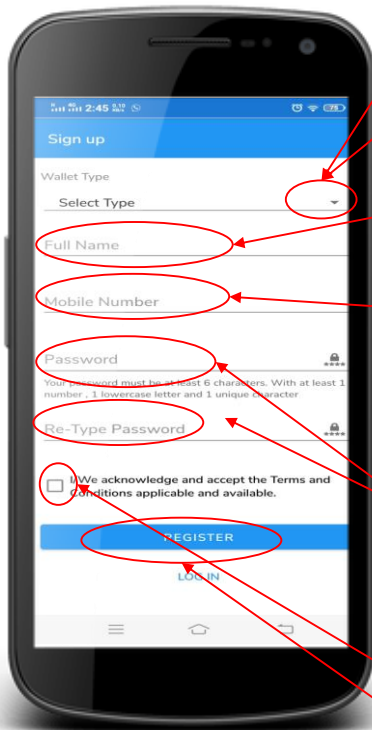

b. Get yourself registered to CashBaba account by filling up the form with necessary information (you should use your accurate and valid information in order to avoid having problems in using your account)

Wallet Type-

Formatted: Right: 0.57"

Select the wallet type from the drop down menu

Personal- If you want to use this account for your personal use, tap on this icon and select personal

Business- If you are a merchant and want to use this account for business purpose, tap on this icon and select merchant

Full Name- Write down your name as it is in your National Identity Card (NID)

Mobile number (mandatory)- Enter your 11-digit mobile number though which you want to use to this account (please note that if you have already used this number for a personal wallet, use a new number for register).

Example: 01xxxxxxxxx

Password- You have to set a password as per the instruction given below. The minimum and maximum length of the password should be 6 and 15. After entering the password, retype the password to the next box. Please follow the instruction to set a password.

c. Check the "Acknowledgement Box"

d. Click on "Register"

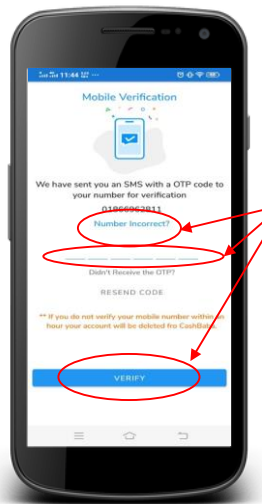

Formatted: Right: 0.57"

3

Account Verification

a. Once you get registered with CashBaba, you will find this page and need to follow the steps mentioned here.

Mobile Verification- Once you complete your registration process, you will receive a mobile verification code to your CashBaba registered mobile number through SMS. You will be able to see the mobile number you have entered during the registration. If you want to change the number, you can do so by clicking on “Number Incorrect?” and you will receive another code on your new number.

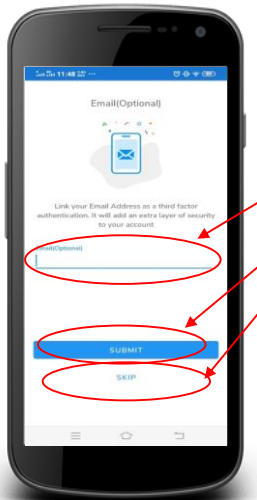

If it's the correct number, enter the code and click on “Verify” to complete the verification process. You will receive a successful notification.

If you don't receive the code, click on “Resend Code” to receive a new one.

(Note: Please remember that if you don't verify the mobile number within 1 hr after receiving the code, the registration will be declined automatically).

Formatted: Right: 0.57"

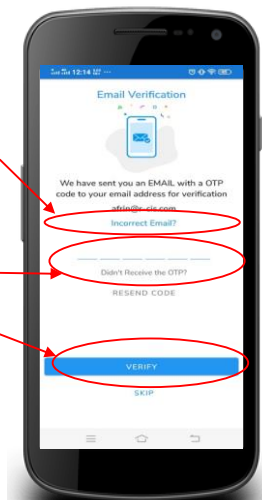

Adding email address (optional requirement)-

- You can add an email address as an extra layer of security to your account. To add an email address, type the email address.
- Click on "Submit"
- Since it's an optional requirement, you can skip the process if you want to.

Email Verification

- You will receive an email verification code to your CashBaba registered email address. You will be able to see the email address you have entered during the registration. If you want to change the address, you can do so by clicking on "Incorrect email?" and you will receive another code on your new email address.
- If you don't receive the code, click on "Resend Code" to receive a new one.
- If it's the correct email address, enter the code and click on "Verify" to complete the verification process. You will receive a successful notification.

Formatted: Right: 0.57"

Adding National ID Card-

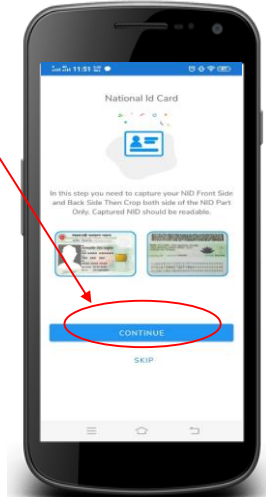

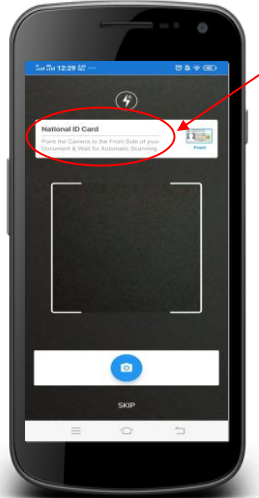

a. After the completion of email verification process, this page will appear. To add your National ID Card, click on "Continue".

b. Follow the instruction shown in the page and take picture of both front and back side of your National ID Card. You will be able to crop the image and adjust it.

Note: Please take the picture in bright and clean place

c. You will receive a successful notification

Note: You can skip the time being but remember that, it's a mandatory requirement and you have to complete the process to get full access to your account.

NID Information (Mandatory)-

d. After the scanning takes place, CashBaba will auto read your basic information from you NID. You will be able to edit the information. If you find any mismatch in the information, please edit the information.

e. Click on "Submit" button.

f. You will receive a successful notification.

Formatted: Right: 0.57"

KYC Image (Mandatory)-

a. For security purpose, you have to add a KYC image (your photo) by taking a selfie. Your account will be identified through this photo. Click on “Continue”. Once the KYC image is approved by CashBaba admin, you will not be able to change it.

b. You will receive the successful notification

Note: You can skip the process for time being but remember that, it's a mandatory requirement and you have to complete the process to get full access to your account.

Formatted: Right: 0.57"

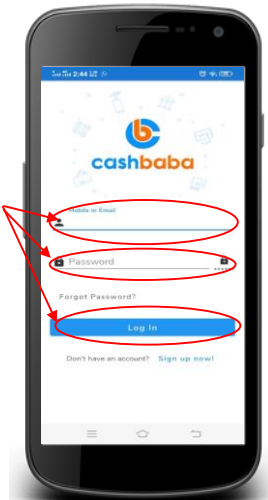

4 Login & Account Information

a. Open the app from your mobile

b. Enter your registered mobile number or email address, enter your password and Click on “Login”

c. Every time you change the mobile device to login to your CashBaba account, CashBaba will send you a device verification code to verify your new device.

d. You will receive the code to your CashBaba registered mobile number

e. Your device may auto read the code or you have to enter the code

f. CashBaba will ask for your device security ID (PIN/ Password/ Fingerprint/ Iris/ Face detection whichever you use to unlock your mobile device). If your device doesn't support device security ID, you have to create a 4-digit PIN Code

Formatted: Right: 0.57"

g. Once you create your PIN Code, this page will appear. Reconfirm your PIN Code by typing it again.

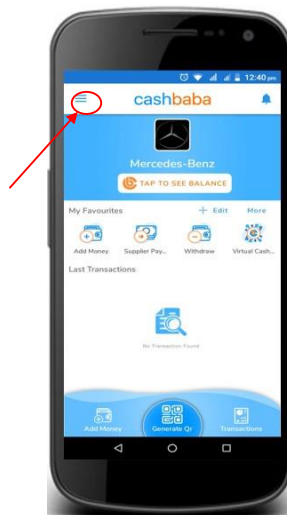

h. Once you set a 4-digit PIN/add your fingerprint, you will have quick access to your account.

Note: If your device supports device ID, your device ID will act as your PIN (it can be a PIN, fingerprint or pattern etc.)

i. After log in to the CashBaba application you will be able to see this dashboard
